

*Quatrain fotografic, LLC* offers Classic Headshot photography sessions for individuals, conducted for up to 60-minutes on location or in the studio where we produce as many images from as many poses and wardrobe changes as you like. Sessions are designed to be casual, fun, collaborative experiences aimed at capturing uniqueness, character and professionalism.

### Session Scheduling

Photography session inquiries can be made at <https://www.quatrainfotographic.com/query.php> Sessions are usually scheduled in late afternoon and/or early evening since it's the best light quality for portraiture. An early morning time is viable as well however. Weather is always a factor, so if there is a need to, then we'll reschedule within a week of the original day. If a studio-only session is ordered instead, then scheduling time is far more flexible. The studio experience generates additional cost because of extra production time and resources required. See the Client Query Worksheet on page 2 for details.

Choosing an appropriate studio background and image stylization is based on the context of where these images are to be published, and it's an important aspect of the photography that I ask each client to determine. Background choices range from high-key [white] to low-key [black], and from muslin to smooth neutral, or color gradients to texturized gradients. I'm pleased to offer suggestions.

*Bookings are available year-round.*

**Private galleries remain posted for one-year** from the scheduled portrait session date, so images are easily accessible if clients identify the need to order more prints later.

### Large & Small Workgroups

Please note that I have worked with large & small organizations that called for their entire workgroup to be photographed. In cases such as this, the rates are adjusted per individual since the level of production and time commitment per person is packaged. Rate adjustments are based on the quantity of people called to be photographed, as the quality time per person hovers in the 20-minute range. If the workgroup is requested to be photographed together I am pleased to include that as part of the package.
